Edukacija o mentalnom zdravlju ranjivih skupina djece

Slavica, Maja, Mitja i Zlatko nisu odrastali na istom mjestu ni u isto vrijeme. Ipak, povezuje ih pun kufar tema o mentalnom zdravlju ranjivih skupina djece i još par sitnica koje ćete saznati ako ih upoznate.

Njihovi su kuferi puni tereta i često nisu kod kuće, kao ni mnoga djeca s kojom su se igrali i stvarali. Željima spoznaje rado će otkriti što godinama skriva dječja i njihova prtljaga.

Stoga kufere u ruke, čekamo Vas u Centru DJEČJA POSLA!

Pozivamo Vas na jedinstvenu edukaciju inspiriranu dugogodišnjim psihoterapijskim i pedagoškim radom voditelja. Iz različitih stručnih perspektiva pristupamo populaciji djece i mladih koju uobičajeno opisujemo poznatim nozološkim kategorijama i psihosocijalnim terminima.

Termin „ranjivi“ jedan je od točnijih i najbenignijih. No ni on nije potpuno u skladu s našim stručnim pogledima na pitanja koja se tiču mentalnog zdravlja djece i metodologijom našeg rada.

Naš jezik je jezik igre, simbola i kreativnih modela komunikacije. On omogućuje drukčiji uvid u svijet djece s kojom radimo te učinke koji ohrabruju i motiviraju.

Iskustvene radionice bazirane na tehnikama dječje psihoterapije prilagođene za rad s odraslima i brojni primjeri iz prakse senzibilizirat će vas za položaj i potrebe upravo one djece koja su vam u svakodnevnom radu najveći izazov.

Obećavamo Vam da nakon ovog iskustva više ništa neće izgledati isto te da ćete raspolagati lepezom mogućnosti za izgradnju konstruktivnijeg odnosa s djecom i za uspješnije stručno djelovanje mladima na dobrobit.

Zlatko, Mitja, Maja i Slavica
